

RFP 709-16P Parking Lot Maintenance

Addendum 001
Issued May 25th, 2016

Attached below is a map of the area to be paved. The main focus of the project being the entry way drive plus the two sections of entry way that lead up to the concrete trays for the back parking lots closest to Miller Ranch Road. The main focus also includes the section of parking lot that holds ADA parking, from concrete tray to concrete tray. The section of parking lot marked #2 on the map is secondary on the project if funds are available.

Amendments include:

- Total square foot area to be milled and paved is roughly 25,000 sq. ft.
- Striping parking spaces & ADA parking spaces
- Hauling milled asphalt to Dotsero Fire Science Training Facility
- CMC will bring in Ground Engineering as a 3rd party tester. CMC will cover this expense.
- Paving schedule still to be determined, but would include:
 - 1st Friday - Mill existing asphalt
 - 2nd Friday - Lay asphalt. Don't drive on until the following Monday
